The summer exams season is just around the corner and we know you're working hard to focus on the finer details to help students achieve their goals. With SISRA Analytics, highlighting intervention and support related to student, subject and school performance couldn't be easier.

WARNING: Most providers use very blunt/inaccurate tools to produce 'subject progress' figures.

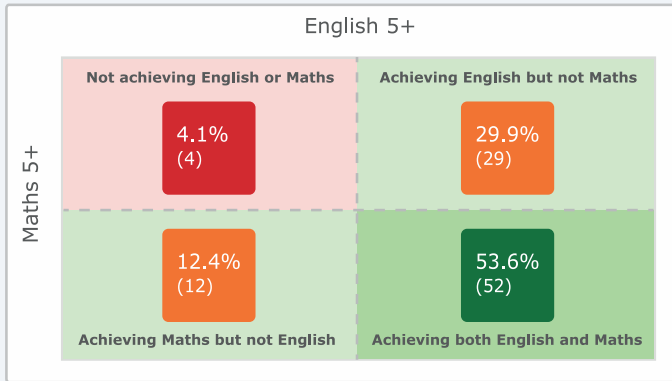

Our unique Subject Progress Index (SPI) provides accurate, reliable subject progress figures by comparing your performance to the exam results of more than 1,300 schools that took part in our most recent SISRA Data Collaboration.

Our SPI is the most accurate KS4 subject progress tool available to schools. Feel free to ask us why!

Qualification Name	Grade	Residual	Subject Progress Index	SPI Chart	Attitude Behaviour Organisation	Target Grade	Target Diff (whole)	Target Diff (sub)	KS2 Core
Computer Science	4 =	-0.80	-0.72		A C B	4 +	0	-1	5.34
