

**CUT
PAPERWORK.
REDUCE
WORKLOAD.**

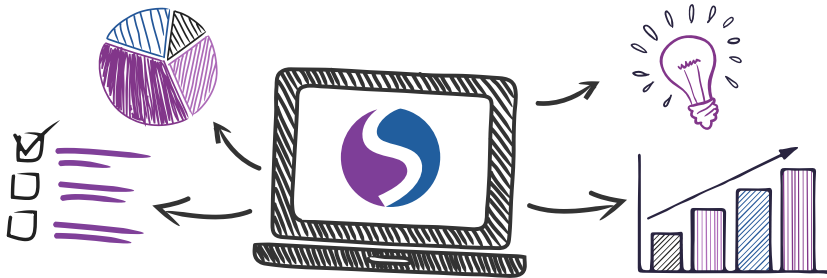

Observe

SISRA Inform · Share · Reflect

The web-based platform that **cuts down on admin** and helps you **focus on what really matters.**

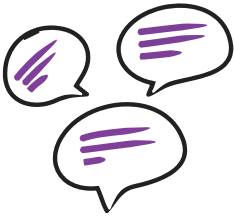

Save time by waving goodbye to unnecessary tasks, mountains of paperwork and maintenance-heavy spreadsheets. Choose **one** platform for all of your quality assurance, appraisals, self-evaluations and developmental activities like research and enquiry projects.

We've optimised the service so it's easy to observe on the go – the data gathered is then presented in user-friendly charts, enabling you to identify strengths and areas for improvement at a glance, and giving you the power to make informed decisions about where to focus CPD time and spending.

“The key drivers for me are transparency and efficiency. SISRA Observe allows us to track specific trends within each observation type, which quickly informs us what our key strengths and areas for improvement are, allowing us to plan CPD, support and share best practice.

Clare Fielding, Quality Manager at Mantra Learning”

3 ways SISRA Observe can **benefit your organisation**

- ✓ **Flexible** – Whether you're grading aspects of teaching or using no grades at all, SISRA Observe supports any approach, so there's no need to change the good stuff you do.
- ✓ **Easy to use** – The simple, intuitive interface means little to no training for staff and makes it easy for everyone to take charge of their own professional development.
- ✓ **All in one place** – Everything is in one secure place, not saved across multiple shared drives or hidden away in lever arch files.

✓ **Accessible** ✓ **Affordable** ✓ **Secure**

Arrange a **free, no-risk trial** and try it in full before you commit.
