

**Saving you an hour
for every observation**

 **Observe**

SISRA Inform • Share • Reflect

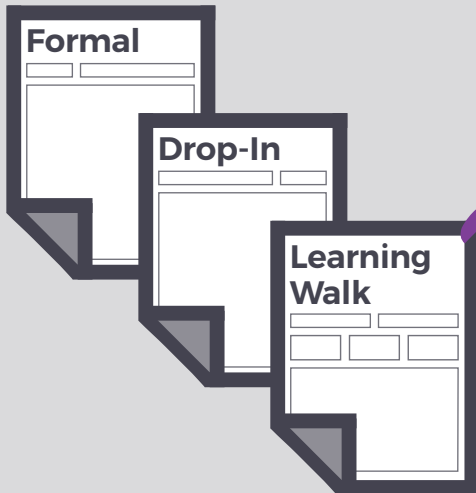

How does it work?

Observe is a **web-based service** which allows **evidence from lesson observations** (and more) to be **recorded using your mobile device, tablet or laptop**

Schools using Observe can **eliminate** paper and spreadsheets from the observation process, saving them up to an **hour** each time they observe, drop in or go on a learning walk

Create and customise electronic templates with your own fields and custom grading (you aren't limited to Ofsted's 1-4)

Learning Walk

Duration: Topic:

Insert New Row:

Objective displayed?:

Regular feedback and marked work?

Comments:

Outcome:

Insert New Row:

Record a variety of activities such as formal observations, learning walks and self-evaluation records

Name	Faculty	Subject
Teacher 1	Maths	GCSE Maths
Teacher 2	Humanities	GCSE History
Teacher 3	ICT and Business	BTEC Business Studies

Review evidence recorded in an observation

Development Area
Presentation
Behaviour Management
Marking and Feedback
Use of TAs

Initiate conversations and provide support

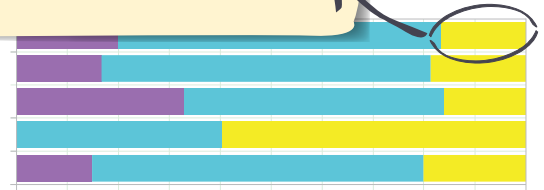

Observe teaching on mobile devices such as tablets and iPads, accessible from anywhere with an internet connection

Flexible access levels, allowing staff to see only the information relevant to them

Drill down to filter the data to enhance analysis and allow support to be put in place.

Above Standard At Standard Below Standard

Easy to use reports dashboard provides up-to-date analysis in just a few clicks

Easy Access

Storing valuable information electronically means it can be easily retrieved, analysed or cross-referenced.

- ✓ **Always up-to-date.** No need to wait for documents to be sent to you via email or worry if you're using the latest version of a spreadsheet
- ✓ **No risk of loss or corruption.** All data is hosted securely and can be accessed with your own username and password

One school recently got in touch to tell us about their faculty speed dating sessions using Observe. Teachers each spent four minutes with every colleague in their faculty, sharing strengths and areas for development from recent observations

Interested in knowing more about this and other great ways our schools are getting staff involved? Contact us!

Save time!

Remove printing, scanning, photocopying, collating, data entry and more!

Up-to-date information in a few clicks means no more evenings spent compiling reports for governors, SLT meetings or inspections

We estimate around **an hour could be saved for every observation** that takes place

For an average secondary school observing each teacher once every term, this could mean **over 200 hours saved each year!**

“SISRA Observe has helped create something that is so rare in schools...time. Time that can be invested in ensuring the quality of our teaching is the very best it can be. Time that can be given to teachers and leaders to ensure that, above all else, high-quality teaching and learning is the cornerstone for driving school improvement.”

Assistant Head Teacher, Barnsley School

+ Online Support

Our dedicated team can assist with your queries quickly and efficiently

All SISRA Administrators have access to free support Mon-Fri 9am-5pm (local time)

"Incredibly supportive team, very approachable. First class service! The online support works much more effectively than waiting in a queue on the telephone. Would, and often do, highly recommend to other schools!"
Data Manager, Staffordshire School

+ Consultants

Experienced consultants can provide onsite and online training in all aspects of the service including staff training

Your local consultant is available to give advice and support you during the transition from paper and spreadsheets to SISRA Observe

"Having the training in house allowed us to use live data, and made the process real. The planning before and follow-up support meant that the consultancy met our unique requirements."
Senior Leader, Sefton School

SISRA Analytics

Empowering Improvement

In addition to Observe we also offer Analytics, a web-based service for processing, tracking and analysing your Attainment and Progress data.

Analyse and track KS3 students using your own 'Life after Levels' solution

@SISRAAnalytics

“When I met with the Ofsted inspector, it was easy to show him on SISRA Observe where we were with regards to standards. He was impressed with how we used it and could see the impact it has had on our journey to outstanding. It had been used as a tool to focus our priorities and drive the standards of teaching and learning to an outstanding level.”

Assistant Head Teacher, Kingston upon Hull School
